Getting Started

Our **no code Form Builder** allows registered users to build voting and feedback apps.

These include checklists, feedback, quizzes and appointment finding apps.

Configurable app templates help build ready-to-use apps within 5 minutes.

- 1. You create Checklists, feedbacks, votes, orderlists for groups , learning quizzes etc.
- 2. You share it with customers.
- 3. Customer fills in the data and clicks on Submit
- 4. You get the data in your personal account

Create new App

1. Go to choisee (jodler.herokuapp.com)

2. Click on login and login your Google Account

4. The site consists of additional elements :

a) The "ShareLink" input field allows you to use a unique identifier for the share link that you then send to users.

Replace "Dummy" with the desired identifier for a concrete User.
